NEWSLETTER SUPPLEMENT NO. 3/80 MAY 80

### VISITS.

The March fixture was a visit to Malvern House, a Victorian mansion in East Malvern now a primary school section of Caulfield Grammar School.

The Head Teacher, Mr. W. Sayers, gave us a short history of the building, indicated briefly some of the maintenance problems and conducted us round the building, pointing out many of it's interesting features. These included the staircase, balustrade, lantern, verandah, and the imported parquetry floor, still in excellent condition. We are very grateful to Mr. Sayers for this most interesting evening.

In April, we visited the Melbourne University Archives, the workplace of member, Cicely Clese. After an introductory talk by Cicely, and an inspection of the office section, we crossed the park to the modern store where Director, Mr.Frank Strahan, showed us the special features of the building temperature control, movable electricshelves etc. The preservation of business records is one of the chief tasks of the Archives. Thank you, Cicely, for arranging the visit. It was educative and a new field for most of us.

Visits in consecutive months is not our usual practice and we will try to avoid this happening again.
